

ICR Grand Rounds Seminar

“Disparities in head & neck cancer survival among patients treated at a multidisciplinary cancer center? A look from multiple angles”

Learning Objectives...

Those attending this presentation will receive educational information and be exposed to the following ideas and concepts to:

- 1) **Better understand the influence of patients’ sex on survival outcomes among head & neck cancer patients treated at a multidisciplinary cancer center;**
- 2) **Better understand the influence of patients’ race/ethnicity on survival outcomes among head & neck cancer patients treated at a multidisciplinary cancer center;**
- 3) **Better understand the unique influence of patients’ neighborhood-level economic deprivation on survival outcomes among head & neck cancer patients treated at a multidisciplinary cancer center;**
- 4) **Better understand how information about individual- and area-level predictors of survival disparities can be applied in practice to improve outcomes among head & neck cancer patients**

Lorraine R. Reitzel, Ph.D.

**Assistant Professor
Department of Health Disparities
Research
University of Texas
MD Anderson Cancer Center
Houston, TX**

**Date: Wednesday
July 3, 2013**

Time: 12:00 to 1:00 pm

Location: LIB-110

Lunch will be provided on first come basis.
