Canon
CANON SOLUTIONS AMERICA

4251/4245/4235/4225

multifunction printer
compact design
black-and-white copy/print
color scan

Office Solutions

Simply advanced.
Designed for
Busy workgroups that demand outstanding versatility in a compact space

Standard Features
Copy/Print/Send/Store
Black-and-White Copy/Print
Color Scan and Send
Print up to 51 ppm (Letter)
Up to 1200 x 1200 dpi
Up to 11" x 17"
4,980-sheet maximum capacity
Scan up to 51 ipm
Flexible in-line finishing options
Scan directly to Microsoft® PowerPoint® and Searchable PDF formats
Hard Disk Drive Lock and Erase, IPsec
Simply advanced.

The imageRUNNER ADVANCE 4200 Series will propel your business to new levels of performance. A beautifully compact communications hub, it seamlessly integrates business processes and streamlines tasks to achieve impressive efficiency. From every point of view, these models are simply advanced.

**People-Centric**
An exceptionally intuitive, simple-to-use interface puts access to all functions right at your fingertips, whether at the device or at your desktop.

**Mobile**
Even on the go, you’re in control. Print from a laptop, tablet, or smartphone to an imageRUNNER ADVANCE system.

**Security**
Multilayered solutions help safeguard confidential information and support security compliance.

**Cloud-Enabled**
A touch of a button on the user interface lets you access, scan to, or print directly from certain cloud applications.

**Collaborative**
Work better together! Your teams will have the ability to access and leverage the capabilities of other connected imageRUNNER ADVANCE devices on your network.

**Connected**
Advanced technology and expansive enterprise applications work seamlessly with your device to deliver exceptional results.
People-centric. Business-focused.

The imageRUNNER ADVANCE 4200 Series redefines productivity. Users accomplish tasks quickly and effectively. Applications are easily customized to enhance workflow. And flexible finishing options promise cost-effective, professional-quality documents.

A smart, intuitive interface

The imageRUNNER ADVANCE 4200 Series empowers users. With an impressive range of customizable, simple-to-use, streamlined features, these models help everyone work smarter and faster. A large, 8.4", full-color, high-resolution TFT screen lets users easily view all information.

Two menus
Press the Main Menu key for instant access to business-ready functions. Use the Quick Menu to power productivity by combining and accessing routine tasks at the touch of a button.

Customizable
Organize the on-screen buttons to fit the way you work by determining their number, size, and layout. Even display your own logo or special graphic as a screen background.

Web-ready
The optional Web browser lets you go online directly from the device control panel. Just enter a URL to browse pages. Easily output online PDFs.

Handy tutorials
Quickly access simple, step-by-step instructions right on the user interface.
Inner Finisher with Hole-Punching

Engineered for adaptability
These intelligent systems will help you achieve your goals today and in the future. With the ability to smoothly integrate hardware and software solutions, the imageRUNNER ADVANCE 4200 Series lets you personalize applications to meet your organization’s changing needs. And it’s highly flexible, so you can easily add to, or update, your system with the quick deployment of settings and applications across your enterprise.

Designed for ease
Even with its compact size, the imageRUNNER ADVANCE 4200 Series is big on ease of use, including quick-to-replace toner bottles, paper drawers that spring open at the touch of a button, and an optional USB keyboard.

Designed to fit
The imageRUNNER ADVANCE 4200 Series gives you professional-quality output—all within a space-saving footprint. Smartly designed, the models offer an optional internal finisher—and even hole-punching capabilities—while maintaining a compact design.

Walk-up convenience
Easily scan to, or print from, a USB thumb drive. Browse folders and rename files. Even expand connectivity options to include memory media, such as an SD card or CompactFlash card.

A consistent experience
No matter which imageRUNNER ADVANCE device you use, you’ll enjoy a consistent, simple-to-use experience. All models in the Series use the same interface and print driver.
Seamless connections. Next-generation efficiency.

Imaging and enterprise applications seamlessly integrate. Cloud printing and mobility solutions offer the freedom to work anywhere. Complicated tasks are streamlined and simplified. The imageRUNNER ADVANCE 4200 Series—a truly advanced way to work.

**On the go**
In an increasingly mobile world, people need the ability to work remotely while maintaining their productivity. Now Canon delivers advanced solutions that keep work flowing effortlessly from wherever you are.

**Mobile Devices**
Print and scan from your laptop, tablet, and smartphone.* Just log-in at an imageRUNNER ADVANCE device to retrieve your job.

**Cloud Portal**
Gain quick access to cloud-based applications right from your Canon imageRUNNER ADVANCE device. Simply log in to access or send documents directly from the cloud.

**Advanced Anywhere Print**
Print to a connected imageRUNNER ADVANCE system. Then conveniently and securely log in at any supported device on the network to view and retrieve your print job with this serverless solution.

*Check for supported devices.

---

**Extensive Print Solutions**

**Print Options**
Canon’s proprietary UFR II print technology is standard with these models. Options including Adobe® PostScript® 3™ and PCL 5e/6 are also supported.

**Control**
Canon’s Driver Configuration Tool allows you to set specific defaults and custom profiles. You can also control costs with features such as default duplex printing as well as enhance security by forcing secure print.
Easy collaboration

Scan and store documents
Designed to streamline workflow, these models let you readily save, store, and access scanned documents from multiple locations. Store them in built-in spaces, such as Mail Box and Advanced Box, or external spaces, such as memory media or another networked location.

Distribute documents
Distribute scanned documents to multiple destinations, such as e-mail and fax addresses and network folders, all in a single step. Now you can scan and convert both black-and-white and color documents directly into Microsoft PowerPoint or a Searchable PDF format. Universal Send supports an expanded range of file formats, including High-Compression PDF/XPS and Encrypted PDF.

Fax documents
These models support up to four fax lines, work with your VoIP network, and have the ability to share the fax function of another networked imageRUNNER ADVANCE model. The Job Forwarding feature automatically routes incoming faxes to other systems, users, or destinations.

Right from your PC
Enjoy even greater control and convenience right from your PC. Use the imageRUNNER ADVANCE Quick Printing Tool to print, fax, preview, and convert files to PDFs, as well as monitor the status of your system—all without even opening an application. The imageRUNNER ADVANCE Desktop solution lets you manage and prepare documents, combine multiple formats, preview files, and select the finishing functions.

Real managed document services
MDS (Managed Document Services)—expert, ongoing optimization of your total document environment—can boost productivity and help deliver big savings. These models are designed from the start to tap into powerful MDS tools and services that track usage, improve printing behavior, identify excessive printing, efficiently manage information and processes, and more. Canon’s software solutions and professional services leverage MDS to take your business to the next level.

Streamline your workflow
Canon’s middleware technology links enterprise applications, such as Oracle and SAP, with Customer Relationship Management systems such as Salesforce.com. The streamlined workflow automates complex business processes and offers easy access to information, saving both time and money.
Robust security. Centralized management.

In today’s networked world, you need greater control over your resources and data. The imageRUNNER ADVANCE 4200 Series delivers just that with the ability to configure a system, help safeguard information, and track resources, all right at your fingertips.

Powerful command
Canon’s device management tools keep you in charge at every step, right from your desktop or through the cloud. Easily install and replace devices, migrate settings and data to new ones, and distribute applications and settings across your network. Monitor a single device with the Remote User Interface or an entire fleet with the imageWARE Enterprise Console. You can even receive alerts when supplies or service are needed.

Safeguard data
From installation to retirement, this Series offers multilayered solutions to help safeguard information and support security compliance. HDD Erase, a standard feature, removes latent images after each task to help safeguard your information during use and at end of life. A security chip with tamper-resistant hardware helps protect passwords and encryption keys. IPsec provides security for data as it traverses the network.

Maximize resources
These systems offer advanced tools to help you track, manage, and influence user behavior. Solutions such as uniFLOW analyze output, encourage double-sided printing, and allocate costs by department, project, or client. You can also route jobs to the most cost-effective device.

Secure authentication
With the need to keep data secure, Universal Login Manager and AA-Print provide a serverless environment where users can print from anywhere within the network to any supported device via log-in authentication. This helps prevent printed documents from being left unattended.
Professional quality. Outstanding reliability.

Give your business a real competitive edge with the imageRUNNER ADVANCE 4200 Series. True multitasking power keeps work moving. Custom workflow solutions streamline processes. And professional-quality documents are reliably produced.

Powerful operation
Keep work moving at the speed your business demands. These models have two dedicated processors that work together to accomplish multiple tasks simultaneously. Quick Startup mode minimizes warm-up time, so devices start up promptly.

Lots of uptime
With the imageRUNNER ADVANCE 4200 Series models, you’ll enjoy ongoing productivity. Status notifications keep you ahead of the game, and toner and paper can be replaced on the fly. If the correct paper size or stock for a job is unavailable, the system can begin the next job, without delay, to help maximize uptime. If a misfeed occurs while you’re scanning, work keeps moving forward without needing to restart from the misfeed location. And easy access to the latest technology and upgrades keeps these models operating at peak performance.

Targeted, integrated solutions
With productivity paramount, the imageRUNNER ADVANCE 4200 Series offers the ability to personalize the way your company gathers, organizes, and disseminates information. Canon’s innovative MEAP® platform lets you develop custom solutions to meet specific workflow needs. And new levels of connector and link support enhance communication with existing systems as well as those you may acquire in the future.

Standout results
Make a great impression with professional-quality reports, manuals, newsletters, and contracts. The imageRUNNER ADVANCE 4200 Series gives you the ability to generate high-quality documents in-house. Produce crisp black-and-white images and finish documents easily, all while enjoying outstanding convenience and impressive cost savings.
The imageRUNNER ADVANCE 4200 Series incorporates innovative, eco-conscious features that keep your business operating efficiently while helping to reduce your environmental footprint.

**Strong commitment. Eco-conscious solutions.**

Canon knows that the world and the workplace need a greener workflow, and the imageRUNNER ADVANCE 4200 Series, rated EPEAT® Silver, delivers just that. Now you can seamlessly share and distribute digital documents as well as preview files to make changes prior to printing, all of which help to reduce the use of paper and toner. Print drivers are defaulted to duplex documents to encourage two-sided printing and reduce waste. And with Secure Print, documents are sent to a device but not printed until a password is entered, further contributing to paper waste reduction.

**A clear strategy**

**Greater energy efficiency**

From the inside out, the imageRUNNER ADVANCE 4200 Series is designed for high-energy efficiency and stellar performance. The combination of Canon’s fusing technologies and toner helps lower overall energy consumption by minimizing power requirements and reducing energy use during warm-up and standby modes. With advanced technologies present in each model, the Series also meets ENERGY STAR® standards.

**Minimize environmental impact**

All suppliers are required to meet Canon’s stringent Green Procurement policy and environmental terms. This helps the company exceed the toughest global standards set by the EU RoHS Directive, which restricts the use of certain hazardous substances.

**Eco-conscious design**

Canon is making a difference through creative, ecological thinking. These imageRUNNER ADVANCE models employ certain components that are made with recycled plastic from retired products. And, Canon’s innovative green technologies also include bio-based plastic, a plant-derived compound that replaces certain petroleum-based plastic parts.

**Reduction of CO₂ emissions**

Through its Life Cycle Assessment System, Canon has lowered CO₂ emissions by focusing on each stage of the product life cycle, including manufacturing, energy use, and logistics. These products are designed to be the smallest and lightest in their class, with less packaging to help make transportation more efficient.
imageRUNNER ADVANCE 4251/4245/4235/4225

Designed for outstanding versatility

Finishing Options

A Booklet Finisher-G1
- 2-tray, 5,000-sheet capacity
- Corner and double stapling, up to 50 sheets
- Booklet-making, up to 16 sheets

B External 2/3-Hole Puncher-B2*
- 2- and 3-hole punching

Inner Finisher-D1 with 2/3-Hole Puncher-A1 and Optional Inner Finisher Additional Tray-A1
- 600-sheet capacity**
- 2- and 3-hole punching
- Corner and double stapling, up to 50 sheets

Staple Finisher-G1
- 2-tray, 3,000-sheet capacity
- Corner and double stapling up to 50 sheets

Other Finishing Options:
Inner 2-way Tray-H1

Printer Options***
- PCL Printer Kit-AY1
- PS Printer Kit-AY1
- Direct Print Kit (for PDF/XPS)-H1

Security Options
- Universal Send Security Feature Set-D1
- Universal Send Digital User Signature Kit-C1
- Encrypted Secure Print-D1
- Removable HDD Kit-AJ1
- Secure Watermark-B1
- Document Scan Lock Kit-B1
- HDD Data Encryption and Mirroring Kit-C4
- HDD Data Erase Scheduler
- iR-ADV Security Kit-K1 for IEEE 2600.1 Common Criteria Certification†

Accessibility Options
- Remote Operators’ Software Kit-B1
- Voice Operation Kit-C2
- Voice Guidance Kit-F2
- Braille Label Kit-F1
- ADF Access Handle-A1

Utilize the imageRUNNER ADVANCE 4200 Series to their full potential with professional services from Canon Solutions America.

Whether your business is large or small, remaining competitive in the global economy means you need to concentrate on what makes you successful—your core business. When selecting and implementing new technology, a highly skilled technical team is the difference-maker for a successful deployment.

Canon Solutions America has the team of experts you need to help you acquire the right technology, solutions, and services for your organization. From pre-sales analysis to post-sales support, our team of technical professionals draws upon decades of technical expertise and real-world experience to ensure you obtain the maximum benefit from your technology investment.

* Requires Staple Finisher-G1 or Booklet Finisher-G1.
** 1000-sheet capacity when Inner Finisher Additional Tray-A1 is not attached.
*** UFR II standard.
† Not available at time of launch.
Note: For additional options and specifications, please refer to the back page.
### Main Unit

**Operation Panel:** 8.4” SVGA Full-Color TFT Screen

**Memory**
- Standard: 1256 MB RAM
- Maximum: 1756 MB RAM

**Hard Disk Drive**
- Standard: 160 GB
- Maximum: 1 TB

**Network Interface Connection**
- Standard: 10/100/1000Base-TX
- Optional: Wireless LAN

**Other Interface**
- Standard: USB 2.0 (Host) x2, USB 2.0 (Device)
- Optional: Device Port (USB 2.0 (Host) x 2), Copy Control Interface

**Copy/Print Speed (Letter)**
- 4251: Up to 51 ppm
- 4245: Up to 45 ppm
- 4235: Up to 35 ppm
- 4225: Up to 25 ppm

**First-Copy-Out Time (Letter)**
- 4251: 3.7 Seconds
- 4245/4235: 5.8 Seconds
- 4225: 5.2 Seconds

**Paper Sources (20 lb. Bond)**
- Standard: Dual 550-sheet Paper Cassettes, 80-sheet Stack Bypass
- Maximum: 4,980 Sheets

**Output Paper Capacity (20 lb. Bond)**
- Standard: 250 Sheets (Inner Tray)
- Maximum: 3,000 Sheets (w/ Staple Finisher or Booklet Finisher)

**Output Paper Sizes**
- Cassettes: Legal, Letter, Letter-R, Statement-R, Executive, Custom Size (5-1/2” x 7-1/8” to 11-3/4” x 18-1/2”)

**Acceptable Paper Weights**
- Cassettes: 16 lb. Bond to 34 lb. Bond (60 to 128 g/m²)
- Bypass: 14 lb. Bond to 80 lb. Index (52 to 220 g/m²)

**Warm-up Time**
- From Power On: 30 Seconds
- From Sleep Mode: 10 Seconds
- Quick Startup Mode: 7 Seconds

**Power Requirements/Plug**
- 120V AC, 60Hz (10.4A/NEMA 5-15P)

**Dimensions (H x W x D)**
- 4251/4245: 35-1/2” x 22-1/4” x 27-1/8” (909mm x 565mm x 708mm)
- 4235/4225: 30-3/4” x 22-1/4” x 27-5/8” (777mm x 565mm x 700mm)

### Installation Space (W x D)
- (when the Multi-Purpose Tray is extended)
  - 4251/4245: 34-1/2” x 27-7/8” (876mm x 708mm)
  - 4235/4225: 34-1/2” x 27-5/8” (876mm x 700mm)

### Weight (Includes Consumables)
- 4251/4245: Approx. 172 lb. (77.9kg)*
- 4235/4225: Approx. 154 lb. (70kg)

### Toner
- (Estimated Yield @ 6% Coverage)
  - 4251/4245: 34,200 Images
  - 4235/4225: 30,200 Images

### Document Feeder

**Scan Method**
- Duplexing Automatic Document Feeder (Standard on 4251/4245; Optional on 4235/4225)

**Acceptable Originals**

**Scan Speed**
- BW/Color/Letter: Simplex: 51/31 ipm (300 dpi) Double Side: 51/30 ipm (600 dpi)**

**Paper Capacity (20 lb. Bond)**
- 10 Sheets

### Print Specifications

**Engine Resolution:** 1200 x 1200 dpi

**PDL Support**
- Standard: UFR II
- Optional: PCL 5e/6, PCL 6, Adobe PS 3

**Printer Driver Supported OS**
- UFR II, PCL 5e/6, Adobe PS 3
- Windows® (XP/Windows Vista®/7/8), Windows Server 2003/2008/2008 R2/2012, Windows Terminal Servers, Microsoft® Clustering Server, Citrix, Macintosh® (OS X 10.5.8 or later, UFR II and PS 3 only), VMware, SAP (PS and PCL Only)

**Direct Print Support**
- Standard: TIFF, JPEG
- Optional: PDF, EPS, **XPS**

### Universal Send Specifications

**Sending Method**
- E-Mail, I-Fax, File Server (FTP, SMB, WebDAV), Mail Box, Super 63 Fax (Optional), IP fax (VoIP) (Optional)

**Communication Protocol**
- File: FTP (TCP/IP), SMB (TCP/IP), WebDAV
- E-mail/I-Fax: SMTP, POP3, I-FAX (Simple, Full)

**File Format**
- Standard: TIFF, JPEG, PDF, PDF/XPS (Compact), PDF (Apply Policy), PDF (Optimize for Web), PDF/A-1b, XPS, PDF/XPS (OCR), DOCM (L-xtxt)
- Optional: PDF (Trace & Smooth), PDF (Encrypted), PDF/XPS (Digital Signature)

### Fax Specifications

**Maximum Number of Connection Lines:** 4

**Modem Speed**
- Super G3: 33.6 Kbps
- G3: 14.4 Kbps

**Compression Method:** MU, MR, MMR, IJB

**Sending/Recording Size:** Statement to 11” x 17”

### Store Specifications

**Mail Box (Number supported)**
- 100 User Inboxes, 1 Memory RX Inbox, 50 Confidential Fax Inboxes

**Advanced Box**
- Available: Approx. 15GB (Standard HDD)

**Disk Space:**
- Approx. 629GB (1TB HDD)

**Communication Protocol:**
- SMB or WebDAV

**Supported Client PC:**
- Windows® (2000/XP/Windows Vista®/7)

**Memory Media**
- Standard: USB Memory
- Optional: SD, SDHC, CompactFlash®, Memory Stick, Microdrive

### Security Specifications

**Standard**
- Departmental ID Management, Single Sign On-H, Access Management System (Device and Function Level Log-in), Secure Print, Trusted Platform Module, User Access Control of Advanced Box, Mail Box Password Protection, IPv6, Restricting Features (Restricting the Send Function, Restricting New Addresses on Address Book), SSL Encrypted Communication, SNMPv1/v3, MAC/IP Address Port Filtering, SMTP Authentication, POP Authentication before SMTP, HDD Initialize (up to 9x), HDD Erase (Up to 3x), HDD Lock, Iper, Adobe LiveCycle® Rights Management EDI-Integration
