¹ ISO speeds measured using ISO/IEC 24734. Excludes first page or first set of ISO test pages. For details see [hp.com/go/printerclaims](http://www.hp.com/go/printerclaims). ² No heating or fusing warm up time required. ³ Speed specifications have been updated to reflect current industry testing methods. ⁴ HP ePrint requires an Internet connection to the printer and an Account Registration with HP Web Services. Print times may vary. For a list of supported documents and image types for HP ePrint, see [hp.com/go/eprintcenter](http://www.hp.com/go/eprintcenter). AirPrint™ and the AirPrint Logo are trademarks of Apple® Inc., registered in the U.S. and other countries. AirPrint requires the printer be connected to the same network as your Apple device. Wireless performance is dependent upon physical environment and distance from the access point. For additional solutions, see [hp.com/go/mobile-printing-solutions](http://www.hp.com/go/mobile-printing-solutions). ⁵ Duty cycle is defined as the maximum number of pages per month of imaged output. This value provides a comparison of product robustness in relation to other HP LaserJet or HP Color LaserJet devices, and enables appropriate deployment of printers and MFPs to satisfy the demands of connected individuals or groups. ⁶ HP recommends that the number of printed pages per month be within the stated range for optimum device performance, based on factors including supplies replacement intervals and device life over an extended warranty period. ⁷ Average color composite (CMY) and black declared yields based on ISO/IEC 19798 and continuous printing. Actual yields vary considerably based on images printed and other factors. For details see [hp.com/go/learnaboutsupplies](http://www.hp.com/go/learnaboutsupplies). ⁸ Power requirements are based on the country/region where the printer is sold. Power consumption in Sleep mode depends on customer network switch capability, user configuration and network activity.
