Remarkable productivity. Spectacular efficiency.
A bright future for high-volume office environments.

Ahead of its time
With a dramatically new platform, the Canon imageRUNNER® ADVANCE 6075/6065/6055 systems deliver the powerful performance large corporate offices and workgroups demand. Engineered for high-volume traffic, these digital monochrome models rapidly scan, print, copy, fax, and distribute documents with precision and ease.

A profitable advantage
Operate at peak efficiency with these high-speed, large-capacity imageRUNNER ADVANCE systems. Canon’s cutting-edge technologies consistently produce exquisite image quality. Advanced management tools and multiple in-line finishing options help you produce professional documents with remarkable ease. And a range of automated features promises maximum uptime to help you meet demanding deadlines.

User-centric from all viewpoints
Users will be delighted by the friendly interface and their ability to access functions with ease. IT administrators will applaud the new centralized device management solutions and vigorous security features. And business owners will value automated workflow options that boost productivity and help reduce costs.

Smooth workflow, dynamite results
More than ever, business requires us to produce higher-quality work in less time. The imageRUNNER ADVANCE 6075/6065/6055 models make this easy with a range of collaboration tools, streamlined one-step operations for complicated tasks, and the power to perform multiple jobs concurrently.

Even greener
Canon’s commitment to protecting and sustaining the environment is stronger than ever. With the imageRUNNER ADVANCE Series, Canon has incorporated new green technologies that further conserve energy and resources, reduce CO₂ emissions, and help prevent pollution.

A truly advanced partner
Great partnerships deliver a strong competitive advantage. The imageRUNNER ADVANCE 6075/6065/6055 models offer cutting-edge tools and resources that allow you to do better work more rapidly. This gives you the opportunity to focus on the powerful ideas that will advance your business—now and in the future.
A beautiful way to work
The imageRUNNER ADVANCE 6075/6065/6055 models are designed to offer a multitude of resources in a space-saving footprint. The warm, natural color palette integrates seamlessly into any office environment, and the smartly designed new TFT control panel is comfortable and easy to use.

Power for exceptional performance
Accomplish multiple tasks concurrently with the exceptional speed your work demands. These imageRUNNER ADVANCE models incorporate Canon’s Advanced imageCHIP system architecture, which uses two processors to deliver outstanding multitasking performance.

The image processor board works with the scanner, adjusts image size, and ensures superb image quality and super-fast processing. The information processor board controls the user interface and coordinates device networking and connectivity.

Simpler, more intuitive operation
Completely redesigned, the highly responsive, flexible user interface is all about simplicity and ease. The imageRUNNER ADVANCE 6075/6065/6055 models have a range of features that allow users to accomplish much more in much less time.

Size. The large 8.4” full-color, high-resolution TFT screen boasts wide viewing angles and exceptional clarity. An optional upright 10.4” screen with a movable arm is also available.

Menus. Two menus streamline your workflow. Just a stroke of the Main Menu keys gives you instant access to system functions. The Quick Menu powers productivity by allowing you to combine and access routine tasks at the touch of just one button.

Customization. Organize the onscreen buttons to fit the way you work by determining their number, size, and layout. And you can even select an onscreen background.

Tutorial. For users who have “how to” questions, these Canon imageRUNNER ADVANCE models have a tutorial button right on the screen. Quickly access simple step-by-step instructions.
Walk-up convenience
The imageRUNNER ADVANCE 6075/6065/6055 systems are designed to make your work easier. Now you can scan to, or print from, a USB thumb drive. Even expand connectivity options to include memory media such as an SD card or Compact Flash card. To enter data more comfortably, an optional keyboard may be attached.

Essential solutions
Canon has raised the bar on productivity and cost control. Introducing imageRUNNER ADVANCE Essentials—specially created solutions that seamlessly connect the MFP to the user. Now, right from their PCs, users can perform personal document workflow tasks. Productivity is enhanced by assigning complicated tasks to a single button. Administrators can track and manage use and even influence behavior. And with amazing ease, the imageRUNNER ADVANCE 6075/6065/6055 models can quickly link to your external systems.

A striking impression
Enjoy black-and-white image quality that truly stands out. True 1200 x 1200 dpi print resolution produces fine lines and crisp text, even at small font sizes. With 256 gradations, halftones are rendered in rich shades from the lightest gray to the deepest black. Canon’s new pO toner produces clear, detailed images with a smooth, high-quality finish.

Keep running
With the imageRUNNER ADVANCE 6075/6065/6055 models, you’re assured the ongoing productivity your business demands. Status notifications keep you ahead of the game, and toner and paper can be replaced on-the-fly. If the correct paper size or stock for a job is unavailable, the system can begin the next job without delay to help maximize uptime.

Canon’s innovative technologies make it easy to maintain accurate and consistent image quality. The Auto Gradation Adjustment makes sure densities and halftones are set at the ideal levels.

**Accelerated performance**
High-volume office environments demand the powerful performance and versatility that the imageRUNNER ADVANCE 6075/6065/6055 systems deliver.

**Scanner.** The 300-sheet capacity, ultra-fast single-pass duplex color scanner rapidly converts paper documents to color or black-and-white digital files.

**Send.** Files move at an outstanding pace across the network with Universal Send and formats such as High Compression PDF/XPS, which significantly reduces color file sizes.

**Processing.** Large files and complex print jobs are easily and rapidly processed with the latest system architecture.

**Finishing.** A choice of modular in-line accessories makes professionally finishing documents simple.

**Smart productivity**
With a wide range of software solutions, Canon gives your business the edge in saving time, lowering costs, and improving quality. The Workflow Composer utility can reduce multistep and frequently performed operations to the touch of one button on the Quick Menu. You can name interface buttons to match your business processes. And with Canon’s MEAP® development platform, you’re able to take advantage of added applications to extend your capabilities.

**Right from your PC**
Whether from the imageRUNNER ADVANCE model or your own desk, you can have direct access to the functions that make your work easier. The imageRUNNER ADVANCE Desktop utility features a clear, comprehensive PC interface that transforms your computer into a central command station. Now you can perform personal document workflow tasks, such as archiving, merging, and distributing, all from the desktop with “drag-and-drop” simplicity. You can also search for documents with ease, and even monitor the status of your work from any location on the network.
Scan, store, and collaborate

Designed to streamline workflow and meet each user’s needs, these models let you easily save, store, and access scanned documents in multiple locations. Simply select a destination and scan the original. Using built-in spaces like Mail Box and Advanced Box, or external spaces such as memory media or another networked location, you can choose the most efficient way to work.

Advanced Box. Canon’s latest built-in document sharing solution really helps multiple users collaborate. Files can be stored in Advanced Box shared folders and accessed from multiple locations, including PCs or other networked imageRUNNER ADVANCE systems. When privacy is required, files can be saved to personal folders.

Scan, send, and collaborate even more

The imageRUNNER ADVANCE 6075/6065/6055 models make it easy to share and distribute documents widely across a network.

Scan in Color. These systems incorporate a single-pass duplex color scanner that converts paper documents into high-quality color or black-and-white digital files.

Universal Send. In one simple operation, you can scan color and black-and-white documents and distribute to multiple destinations, such as e-mail and fax addresses and network folders. Now Universal Send offers an expanded range of file formats, including High Compression PDF/XPS, Adobe PDF Reader Extensions, Searchable PDF, and Encrypted PDF.

Fax. Readily handle large volumes of fax documents and keep information flowing. These imageRUNNER ADVANCE models now support up to four fax lines and have the ability to share the fax function of another imageRUNNER ADVANCE model on the same network. With the Job Forwarding feature, incoming faxes can be automatically routed to other systems, users, or destinations, including the Advanced Box file-sharing space.

Versatile print solutions

Canon’s proprietary UFR II print technology is standard with these models. Options including Adobe PostScript 3 and PCL 5e/6 are also supported.

Enhance print productivity for multiuser environments with Canon’s imagePASS-UI print controller, which seamlessly integrates into your existing network infrastructure. Add advanced job and management tools, such as imageWARE Publishing Manager Select, and you’ll be able to produce professional documents with amazing ease.

Today, everyone wants more control over their print environment. Canon’s latest Driver Configuration Tool delivers just that by allowing you to set specific defaults and custom profiles. You can control costs by selecting easy-to-use features such as duplex printing or enhance security by opting for a forced watermark.
ADVANCED CONTROL

Robust security
The imageRUNNER ADVANCE 6075/6065/6055 models offer multilayered solutions that help businesses meet their goals of privacy and protection yet keep work flowing. From installation to retirement, this Series has solutions that safeguard your confidential information and help support security compliance.

Access Management System. Limit access by user, group, or role. You can even limit access only for specific functions such as Universal Send.

Document Scan Lock and Tracking. Embed hidden tracking information in a document to restrict unauthorized copying or scanning, and to track the origin.

Adobe® LiveCycle® Rights Management ES Integration. Protect access to documents at every stage. After documents are scanned, specify security policies and select authorized recipients.

Trusted Platform Module. Safeguard vulnerable settings, such as passwords, with a new security chip featuring tamper-resistant hardware.

Data Encryption and Erase Options. Disguise information before it’s written to the hard drive, and permanently remove it by overwriting when the job is complete.

Removable Hard Disk Drive. With this option, the Hard Disk Drive can be removed and placed in a secure location when not in use.

Centralized control
Control individual models. Remarkably intuitive, the Remote User Interface gives you centralized control right from your desktop. With this easy-to-use Web-based interface, you can access the information for any individual device. Check supply levels, monitor jobs, and stay completely informed.

A fleet of systems. Highly scalable, the imageWARE Enterprise Management Console offers one central point of control for all systems across your organization. This Web-based utility makes it easy to install and manage multiple Canon and third-party networked devices. Uptime is maximized by your ability to monitor jobs and supply levels—even receive e-mail notifications if toner is low or a tray is out of paper.

ADVANCED PERFORMANCE

Peace of mind
Canon builds in signature reliability. Because Canon offers remote service monitoring, automated dispatching, a synchronized hard drive backup, and on-the-fly replacement of supplies, users can count on virtually nonstop operation. And with access to the latest technology and simple, clear upgrades, you can power through your jobs, giving you more time to devote to other business areas.

A positive bottom line
Cost savings are more crucial than ever. Now with Canon’s imageRUNNER ADVANCE Tracker* utility, you have the power to identify, evaluate, and manage all copy/print/scan/fax usage. Allocate costs by department, project, or client. Even encourage double-sided printing right from your desktop. With the ability to monitor multiple networked devices and receive automated e-mail reports, you’ll stay firmly in control of the bottom line.

Responsive performance
Built for high-volume environments, the imageRUNNER ADVANCE 6075/6065/6055 systems operate at peak efficiency to produce professional-quality documents. Rapidly generate reports, manuals, newsletters, and contracts—all rendered in rich black-and-white tones. With the flexible finishing capabilities these models offer, you’ll impressively meet your organization’s everyday business needs.

Easy integration
You’ll appreciate the seamless integration of these models into your network. Readily save or retrieve files from a networked PC or another imageRUNNER ADVANCE model. If a model is busy, scan or print documents from another on the network. With Remote Fax you can share the fax function of another imageRUNNER ADVANCE system, reducing the cost of maintaining multiple fax devices and lines. Improved connector and link support enhances communication with existing systems and integrates with those you acquire in the future.

Solutions that propel your business while reducing our environmental footprint—and yours.

Reduction of CO₂ emissions
Through its Life Cycle Assessment (LCA) System, Canon has lowered CO₂ emissions by more than 30% over previous models by focusing on each stage of the product life cycle, including manufacturing, energy use, and logistics. These products are designed to be compact with less packaging to make transportation more efficient.

Eco-friendly design
Canon is making a difference through creative ecological thinking. The imageRUNNER ADVANCE models employ certain components fabricated with 100% recycled plastic from retired products. Canon’s innovative green technologies also include bio-based plastic, a plant-derived compound that replaces certain petroleum-based plastic parts.

A greener way to work
A visionary company, Canon knows that the world and the workplace need a greener workflow. The imageRUNNER ADVANCE Series delivers just that. Now organizations across the globe can seamlessly share and distribute digital documents. And because you can preview files prior to printing, changes can be made before committing toner to paper to avoid print errors. Administrators can even encourage duplex printing to help reduce waste and save paper throughout the enterprise.

Greater energy efficiency
From the inside out, the imageRUNNER ADVANCE Series is designed for high energy efficiency and stellar performance. The combination of Canon’s fusing technologies and new pO toner helps reduce overall energy consumption by minimizing heat and power requirements. The Series’ duplex image reader captures superb-quality images at impressive speeds while using less energy than ever. Canon’s Induction Heating Fusing System helps reduce power use. And when devices are in Sleep Mode, power consumption is 1W or less. With advanced technologies present in each model, the Series meets ENERGY STAR® standards.

Reducing pollution
All suppliers are required to meet Canon’s stringent Green Procurement policy and environmental terms. This helps Canon exceed the toughest global standards set by the EU RoHS Directive, which requires the restriction of six specified hazardous substances. Canon currently restricts the use of 24 such substances.
