

What is Mindomo?

Mindomo is software used for mind mapping, concept mapping, and outlining. Mind mapping requires students to explore information and decide what's important and how it connects with what they already know. Use mind maps for brainstorming and understanding ideas revolving around a central topic. Use concept maps to see how concepts are connected. Use outlines to refine maps and save them in a linear way.

Getting started with Mindomo

Within one of your courses in Canvas, find the Mindomo link on the course navigation bar. Our UNTHSC site license allows our faculty and students to have accounts with Mindomo. Clicking the link in Canvas will activate your personal account.

Where can I get help using Mindomo?

Within Mindomo, the question mark icon (pictured to the left) leads to a number of helpful tutorial videos for using Mindomo.

For other questions about Mindomo, you can email or call us at the Center for Innovative Learning at UNTHSC:
