

Mediasite Quizzes

A new feature in MyMediasite allows quiz questions to be added and overlaid in Mediasite presentations. When you add a quiz question, Mediasite will automatically pause the video and have the student answer questions. The video will continue after the questions have been answered. Mediasite can provide a spreadsheet of all student responses and percentages of correct answers.

Please note: at this time, there is no direct integration of answers from Mediasite Quizzes into Canvas. To enter Quiz results into your Canvas gradebook, you will manually need to enter responses.

The screenshot shows the MyMediasite dashboard. On the left, there's a sidebar with 'My Presentations' (1), 'My Drafts' (1), 'Channels' (no favorite channels), and 'Shared Folders' (no favorite shared folders). The main area displays a presentation preview with a play button and a 'Record New Video' button. To the right of the preview is a 'Delete' button. Below the preview, there are tabs for 'Information', 'Delivery', 'Actions', and 'Annotate'. Under 'Information', there are fields for 'TITLE' (Unnamed Presentation) and 'DESCRIPTION' (No Description). Under 'Actions', there are buttons for 'Edit', 'View Analytics', 'Publish', 'Copy To', 'Move To', 'Edit Video', and 'Edit Slides'. A prominent red arrow points to the 'Edit Quizzes' button, which is highlighted with a light gray background. Other options in this section include 'Edit Polls' and 'Q & A Forum Disabled'. At the bottom, there are sections for 'RECORDED ON' (May 8, 2018 4:53 PM), 'UPLOADED ON' (May 8, 2018 4:55 PM), and 'STATISTICS' (2 Views).

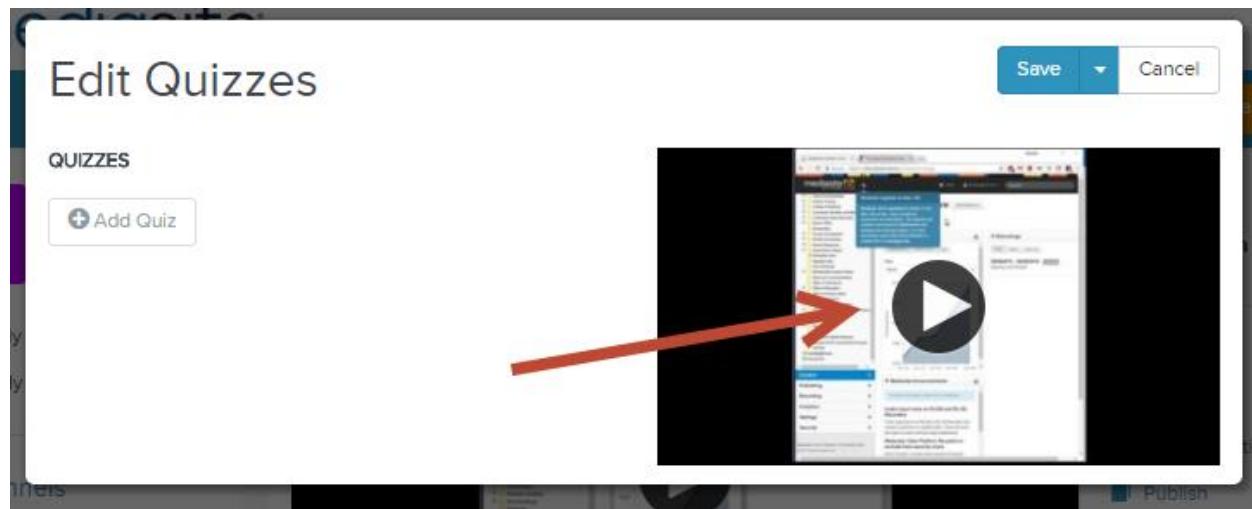

Within MyMediasite, click the **Edit Quizzes** button.

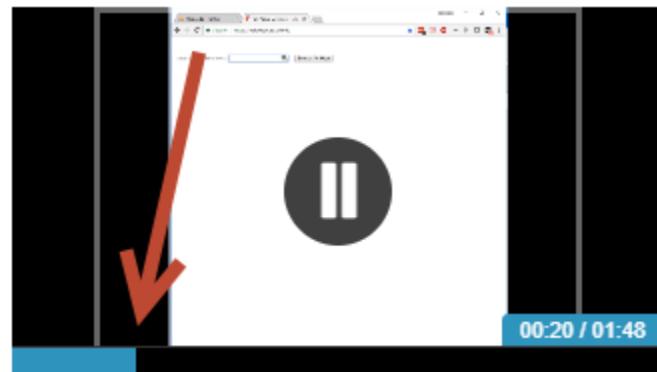

There are three types of Quizzes. Here are the main differences:

- **Study Guide:** This allows students to view their score and all correct answers after they've answered the questions. Students can also choose whether or not to submit their responses to be graded.
- **Assessment:** This allows students to view their score after they've answered the questions, but does not show the students the correct answers. Users can edit their answers after submission.
- **Scored:** This allows students to view their score after they've answered the questions, but does not show the students the correct answers. Users cannot edit their answers after submission.

Whatever you enter in the **Title** and **Description** text boxes will appear when a student opens the presentation.

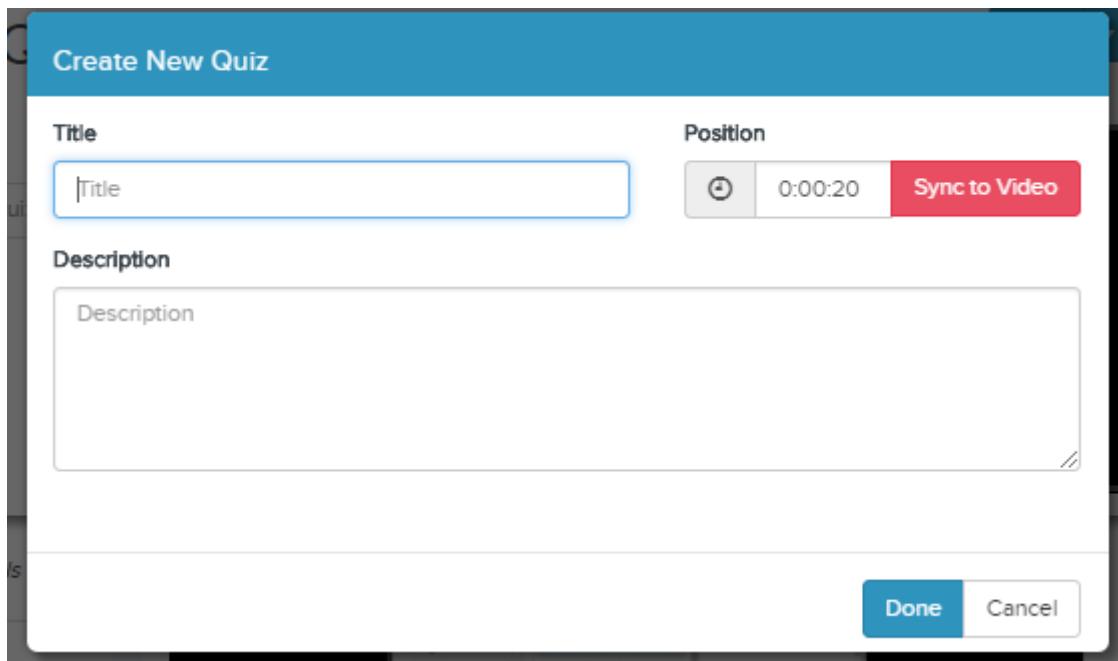

On Edit Quizzes page, click the Play button.

Navigate to a time on the timeline where you'd like to add a question.

Click **Add Quiz**.

You are asked to title this Quiz. (You can have as many quizzes as you'd like during a given presentation. Each quiz can have as few as 1 question.) I have titled mine **Question 1**.

The screenshot shows the 'Question 1' quiz interface. The title 'Question 1' is at the top, along with a 'Quiz Settings' button. Below it is a 'QUESTIONS' section with a 'Add Question' button. The background shows a video player with a progress bar and a 'Edit Video' button.

Click **Add Question**.

+ Add Question

Question

What is the name of this University?

Description

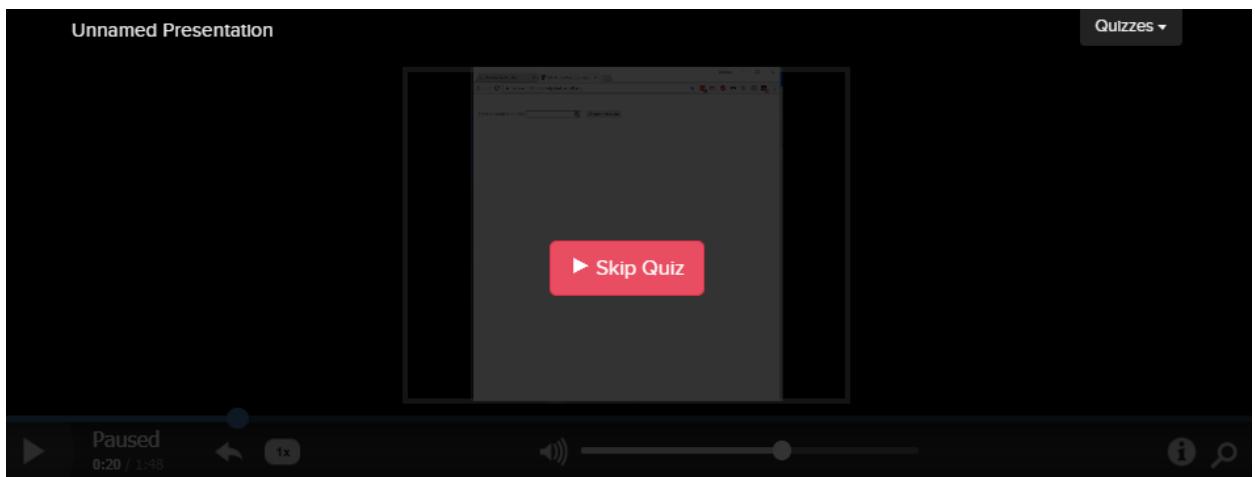

When you are ready, click Save. Click **OK** when it asks you to override Player settings.

Unnamed Presentation

The presentation you are about to view contains interactive quizzes that will appear during playback. Please be sure to review and submit your answers at the end of the presentation.

Let's Go

Now when you watch the video link, the Title that you entered at the beginning will appear. Click **Let's Go** to watch your presentation.

Question 1

1 questions

Take Quiz

When students arrive at the point in the video that you added your first quiz, they will see the Quiz window pop up like this.

- [!\[\]\(eae20f1adff742df783f6f7e3bbe72d1_img.jpg\) Edit Quizzes](#)
- [!\[\]\(43c6e08c5a1618d745b54da5c843274e_img.jpg\) Edit Polls](#)
- [!\[\]\(f5ee48910650695cea680b2433c1d60d_img.jpg\) Q & A Forum](#)
- [Disabled](#)

To view students responses click on Analytics and then the Quiz tab.

The screenshot shows the Mediasite Presentation Analytics interface. On the left, there's a sidebar with user information (Rg, rgs0007), navigation links for 'My Presentations' (My Drafts, My Video Assignments), 'Channels' (CIL Website Media), and 'Shared Folders'. The main content area is titled 'Presentation Analytics' and has tabs for 'Dashboard', 'Who's Watching', and 'Quiz'. The 'Quiz' tab is selected, displaying 'Quiz Results'. A table shows one entry for 'rgs0007' taken on 'Jan 9, 2019 2:59 PM'. The table columns are User, Taken, Submitted, Done, Score, Time Watched, and Coverage. There are buttons for 'Download Report' (PDF) and 'Details' (Excel). The top right of the main area has a 'Back to Presentation Details' link, an 'Add Media' button, and a search icon.

User	Taken	Submitted	Done	Score	Time Watched	Coverage
rgs0007	Jan 9, 2019 2:59 PM			0.0%	00:01:55	00:01:55 (3.2%)

Click on Download Report and then **Excel** and a spreadsheet will download featuring all of the student responses.

It is worth noting again that at this time, there is no direct integration of answers from Mediasite Quizzes into Canvas. To enter Quiz results into your Canvas gradebook, you will manually need to enter responses.
