

# Drug Discovery & Development (DDD) Programs

## ONE FOCUS

## CERTIFICATE

## MASTER OF SCIENCE

### Curriculum

- 100% online didactic teaching
- 4 courses (2 semesters)
- 12 semester credit hours

- 80% online
- 20% capstone research or internship
- 11 courses (1-yr, full-time)
- Minimum 30 semester credit hours
- Thesis not required

### Educational Goals

- Provide students a systematic learning opportunity about the DDD process
- Increase students' understanding of clinical, medical and regulatory affairs of the DDD process
- Enrich students' skillset and career adaptability

### Student Benefits

- Enable students to be more competitive in the job market
- Empower working professionals to expand roles and responsibilities and to advance career
- Provide a gateway for some students to enter advanced educational programs (e.g. MS, PharmD, PhD, etc.)
- Credits may be transferable to MS-DDD
- Expand students' professional network through capstone research and industry internship
- Expose students to real world working environments

### Cost\*

~ \$4,261.50 (tuition & fees)

*\*Cost for both programs will vary for HSC PharmD students  
Based on 2021-22 academic year*

~ \$10,181.26 (tuition & fees)

~ \$22,811.26 (out-of-state tuition & fees)

### Who should apply?

- Recent college graduates in chemistry or life sciences
- Current PharmD students
- Other part-time or full-time students and working professionals

**Fall Semester Start  
Apply by July 1**
