

Maricar Conson, PharmD

PharmD: University of North Texas System College of Pharmacy; Fort Worth, TX

PGY1 Residency: Baylor Health Enterprises; Temple, TX

Research Project: Impact of a team-based learning (TBL) group approach to objective structured clinical examinations (OSCEs) on students' confidence and preparedness to perform final OSCE assessments.

Email: Maricar.Conson@unthsc.edu

Dr. Maricar Conson is from Cleburne, TX, and received her Doctor of Pharmacy degree from the University of North Texas System College of Pharmacy in Fort Worth, TX. Her practice interests include primary care, women's health, and pain management. Upon completion of her residency, she aims to become a Board Certified Ambulatory Care Pharmacist. In the future, Dr. Conson hopes to work in an academic health system or college of pharmacy as she enjoys teaching, precepting and mentoring students. Dr. Conson is a member of Kappa Psi Pharmaceutical Fraternity, Phi Lambda Sigma, and the American Society of Health-System Pharmacists. In her free time, she likes to take in various sporting events and concerts. Additionally, she enjoys working out, trying new foods, spending time with loved ones, and playing with her spunky chihuahua.

Lan Le, PharmD

PharmD: University of Michigan College of Pharmacy; Ann Arbor, MI

PGY1 Residency: West Virginia University School of Pharmacy; Charleston, WV

Research Project: Impact of a novel medication therapy management service on diabetes outcomes

Email: Lan.Le@unthsc.edu

Dr. Lan Le is from Dallas, TX, and received her Doctor of Pharmacy degree from the University of Michigan College of Pharmacy in Ann Arbor, MI. She completed a community-based PGY1 pharmacy residency with West Virginia University School of Pharmacy and Kroger Pharmacy in Charleston, WV. Dr. Le's clinical interest is primary care with a focus on diabetes and mental health. She is a member of the American Society of Health-System Pharmacists and the American Pharmacists Association. Dr. Le recently joined the Texas Society of Health-System Pharmacists and hopes to become more involved through their mentorship program, as student development is an interest of hers. After residency, Dr. Le plans to pursue a position as clinical faculty or as a clinical pharmacist providing ambulatory care services in a health system. In her free time, she enjoys spending time with family and friends, trying out new recipes in the kitchen, and biking.
