Tukea Talbert, DNP, RN, CDP Biography

Currently, I serve as the Chief Diversity Officer (CDO) at UK HealthCare. I lead and oversee all tactics and strategies to support the Diversity, Equity, & Inclusion Strategic Plan and its execution.

As recognized by others, I believe that diversity, equity, and inclusion are not solely important from a moral lens but also imperative from a social justice and economic perspective. My success has been through the development, support, and engagement of team members from all backgrounds who continually demonstrate the power of inclusive excellence and togetherness.

I have the honor and privilege to serve as an adjunct faculty at the University Of Kentucky's College Of Nursing. In this role, I am consistently reminded of the power of curiosity and the impact of education on the development of critical thinking.

I continue to be a principle-centered leader who is constantly curious, growing, and seeking new knowledge and ways to promote growth, development, and equity for all patients, staff, faculty, and students. I understand that success is how you leverage those around you to exceed expectations and produce extraordinary outcomes through transformational leadership to activate change.
