

UNTHSC School of Public Health

MPH – Maternal and Child Health Concentration

The **Masters in Public Health** concentration in **Maternal and Child Health** is designed to prepare professionals from diverse backgrounds for pivotal leadership roles in organizations dedicated to advancing the health of women, children, and families. This comprehensive interdisciplinary concentration provides knowledge of the social, political, historical, and structural factors influencing maternal health, child health, and health disparities. Students enrolled in this concentration will acquire valuable skills and strategies aimed at addressing these factors and fostering health equity among mothers, children, and families. Students will have proficiency in program planning and evaluation, data management, and policy analysis across various levels, including local, state, national and international contexts.

Students in the Maternal and Child Health concentration are admitted once a year as a cohort and are expected to complete 48 hours of coursework and graduate in five consecutive semesters. Students attend lectures and co-curricular activities in-person within a 9-hour block of time (9am-6pm) Monday through Friday.
