

ICR Grand Rounds Seminar

“Pathways that drive a metastatic phenotype in cancer: lessons from mouse models of breast and pancreatic cancer”

Learning Objectives...

Those attending this presentation will receive educational information and be exposed to the following ideas and concepts to:

- 1) **To understand that therapy induced hypoxia alters the tumor microenvironment**
- 2) **Discuss pathways associated with the metastatic phenotype**
- 3) **Recognize potential therapeutic opportunities for improved therapy for metastasis**

Rolf A. Brekken, Ph.D.
Effie Marie Cain Scholar
