

ICR Grand Rounds Seminar

"Determining how tumor cell invasion strategies influence patient outcome"

Learning Objectives...

Those attending this presentation will receive educational information and be exposed to the following ideas and concepts to:

- Tumor cell invasion is a key step in the metastatic cascade;
- 2) Tumor cell interactions with the microenvironment facilitate invasion;
- 3) Cooperation between tumor cell subpopulations can promote invasion;

Gray W. Pearson, PhD

Assistant Professor Simmons Cancer Center UT Southwestern Medical Center Dallas, TX

Date: Wednesday

October 2, 2013

Time: 12:00 to 1:00 pm

Location: LIB-110

Lunch will be provided on first come basis.

Presentation Related to the Subject of Cancer...

"The subject matter addresses how breast cancer cells metastasize, which can lead to patient death."
