

ICR Grand Rounds Seminar

“Tumor-Suppressive Activity of Geranylgeraniol in vitro”

Learning Objectives...

Those attending this presentation will receive educational information and be exposed to the following ideas and concepts to:

- 1) **Food sources of isoprenoids and their functions in plants**
- 2) **Role of mevalonate in isoprenoid-mediated tumor suppression**
- 3) **In vitro evidence for anti-tumor activity of geranylgeraniol**

The research shows the anti-cancer activity of geranylgeraniol in human prostate cancer cells and murine melanoma cells

Huanbiao Mo, Ph.D.

**Professor
Department
of
Nutrition & Food Sciences
Texas Woman’s University
Denton, TX**

**Date: Wednesday
 April 3, 2013**

Time: 12:00 to 1:00 pm

Location: LIB-110

Lunch will be provided on first come basis.
