

ICR Grand Rounds Seminar

"Cancer Proteomics: Principles, Practices and Promises"

Learning Objectives...

Those attending this presentation will receive educational information and be exposed to the following ideas and concepts to:

- bioinformatics methodologies applied to investigate the origins, mechanisms, detection, prevention and potential treatment of malignancies.
- 2) Discuss the value of proteomics in the context of a cancer research project.
- Appreciate the perspectives and potential future impact of the proteomics approach on basic and translational cancer research.

Laszlo Prokai, Ph.D., D.Sc.

Robert A. Welch Chair
Biochemistry
Professor
Molecular Biology & Immunology
UNT Health Science Center
Fort Worth, TX

Date: Wednesday

June 5, 2013

Time: 12:00 to 1:00 pm

Location: LIB-110

Lunch will be provided on first come basis.
