

UNDERSTANDING DEMENTIA AND THE ROLE OF THE HEALTHCARE PROFESSIONAL

Interdisciplinary training video for healthcare professionals, including nursing, social work, counselors, facility-based staff, home health caregivers, primary care physician office staff and family care partners.

1.00 Free Continuing Education Credit available for Nursing, Social Work, and Texas LCP

(1.00 Contact Hour accredited by TNA, TSBSWE and Counselor)

Interdisciplinary Training Video

This training is the first in a three-part series that address deficiencies in knowledge and best practices in treating and caring for persons with dementia and their families.

This first video focuses on:

- Differentiating hallmark clinical signs of the four most common forms of dementia
- Best practices in diagnostic and assessment criteria
- Person-centered communication skills with patients, their families and other care partners
- Professional and Community Resources
