

## What is the patient portal?

A way to access your personal health information any time of the day

A way to communicate with your doctor and request medication refills

Other practices have the patient portal and patients are very happy with it

## Why is the patient portal important for me to use?

Directly communicate with your doctor any time of the day

Learn about upcoming events or announcements for the clinic

Search and receive all the information you need for education

Connect with community organizations

## What will I be able to do with the patient portal in the future?

Receive lab results directly without calling the office
