Interprofessional Education and Learning

SaferCare TX

Simulation Program
Interprofessional Education and Practice

We teach collaborative practice competencies within the context of interprofessional teams with students, staff, faculty and clinicians to improve quality and safety in the care of patients and populations.

Your IPE Department Team

David Farmer PhD, LPC, LMFT, FNAP
Director
David.Farmer@unthsc.edu

Cynthia Carroll, MA, LPC
Assistant Director
Cynthia.Carroll@unthsc.edu

Cailyn Alexander
Executive Assistant
Cailyn.Alexander@unthsc.edu
12 Health Professions Learn About, From and With Each Other in Preparation for Collaborative Practice

UNTHSC students from:
- medicine,
- pharmacy,
- physician assistant,
- physical therapy,
- public health and health administration
- biomedical sciences

Have an opportunity to work alongside students from four partnering institutions:
- nursing,
- social work,
- speech language pathology,
- athletic training
- dietetics

Our IPE Partnering Institutions

TCU
Texas Wesleyan University
Texas Woman's University
University of Texas Arlington
IPE and You

- Visit our website at https://www.unthsc.edu/interprofessional-education/
- Participate as a faculty facilitator for an IPE event (We’ll train you!)
- Sign up for the IPE Faculty Development Microcredential
- Partner with an interprofessional faculty colleague to create a new IPE opportunity within your course
- Model appropriate interprofessional collaboration within your clinical practice helping to enhance the interprofessional learning environment for our students
SaferCare Texas

Who we are: A collaborative, interprofessional team of subject matter experts and thought leaders that provide patient safety solutions throughout Texas and the nation.

What we do: We empower current and future health care professionals and our community through patient safety education and awareness.

Why we do it: Our Vision: To continuously improve communities through patient safety innovation.
SaferCare Texas—Meet our Team!

WE HAVE ONE GOAL:
Challenge traditional Thinking to eliminate preventable harm
