

IACUC Quick Reference Guide

Creating a Team Procedure

1. Log into Huron Research Suite, <https://GRAMS.IACUC.untsystem.edu>
2. Select "IACUC", and from the Submissions page, select the research team to which you want to add a team procedure:

3. Select "Create Procedure" from the left navigation.

4. Fill in the fields on the "Creating New: Procedure" smartform. All fields with a red asterisk are required. Click the  button to complete all the smartform pages. Select the  button when you are done.
5. The Team Procedure has been created and will display under the Procedures tab with a scope of "Team".
6. To copy an existing team procedure to another one of your research teams, select from the "Actions" activity and select "copy procedure".
