

Using animals for biomedical research is a privilege not a right. With that privilege comes the responsibility to treat our animals with compassion. Why?

- ✓ *Because they are living feeling creatures.*
- ✓ *Because it is the right thing to do.*
- ✓ *Because their health may impact the quality of research.*
- ✓ *Because **Lives** depend on it.*

UNTHSC is committed to the humane and ethical treatment of animals.

For emergencies or to report concerns related to the care and use of animals, animal health, or environmental conditions please contact one of the following below:

Egeenee Daniels, DVM
Director, DLAM
