UNT - UNTHSC Intramural Grants

2009 Award Recipients

Systems Biology of Rhodopseudomonas Palustris: Investigation of Global Gene Regulation and Stress Response via Alternative Sigma Factor

Michael S. Allen, Ph.D.
Assistant Professor
Biological Sciences
University of North Texas

Lazlo Prokai, Ph.D.
Professor
Molecular Biology and
Immunology
UNT Health Science Center

Functional Studies on Putative Plant Transporters Using Xenopus Oocytes

Rebecca Dickstein, Ph.D.
Professor
Biological Sciences
University of North Texas

Tina Machu, Ph.D.
Associate Professor
Pharmacology & Neuroscience
UNT Health Science Center

Development of Lamellar Model of the Human Corneal Stroma

Slobodan Dimitrijević, Ph.D.
Research Associate Professor
Integrative Physiology
UNT Health Science Center

Nandika A. D'Souza, Ph.D.
Professor
Materials Science and
Engineering
University of North Texas

Couple Violence and Parenting Young Children: The Ecology of Diverse Low-Income Families, for the Joint Institutional Seed Research Award

Angela Nievar, Ph.D.
Assistant Professor
Educational Psychology
University of North Texas

Suhasina Ramisetty-Mikler,
Ph.D.
Research Associate Professor
SPH Epidemiology
UNT Health Science Center

Pharmacokinetics of Albumin-Coated Nanoparticles

Zygmunt Gryczynski, Ph.D.
Professor
Cell Biology and Anatomy
Molecular Biology & Immunology
UNT Health Science Center

Robby Petros, Ph.D.
Assistant Professor
Chemistry
University of North Texas

Genomic and Spatial Data for Rapid Assessment and Modeling of Emerging Infectious Disease

Sam Atkinson, Ph.D.
Professor
Biological Sciences
University of North Texas

Phillip Williamson, Ph.D.
Assistant Professor
Forensic & Investigative
Genetics
UNT Health Science Center
