- **Associate Dean for Research** at the School of Public Health and Tropical Medicine

LECTURE TITLE

Racism and the Unjust Population-Level Distribution of Disease: Macro-Social Determinants and Psychobiological Mechanisms

REGISTER HERE

Remote viewing via Zoom is available through registration.

About the speaker:

Dr. David Chae's research focuses on social determinants of health inequities and the embodiment of racism. As part of this work, he investigates the interplay between social context, developmental period, behavior, and biology, and links to disease susceptibility and progression. Dr. Chae serves on several scientific groups dedicated to the study of racism.
