

The faculty member should complete this form for each student who is performing a laboratory rotation. Once the form has been signed by both the student and faculty member, it should be submitted to GotoSBS@unthsc.edu. Electronic signatures are acceptable.

Student: _____

Faculty Member: _____

Student EMPL ID: _____

Rotation 1 (August 22-October 14, 2022)

Rotation 2 (October 17 – December 9, 2022)

Course Description:

Students work in a research laboratory on activities directed by the instructor to become acquainted with the research and laboratory environment before selecting a mentor. All students in the Biomedical Science discipline are required to complete a minimum of two laboratory rotations. The primary goal of rotations is to help a student choose a major professor. A secondary goal is to expose students to a number of areas of study to expand expertise and knowledge in research techniques. Each rotation is eight (8) weeks in length. Course is graded Pass/No Pass.

This section should be completed by the Faculty and agreed upon by the student.

Give a brief description of the research project, expected time commitment, development of research skills, and learning objectives for this rotation (field will expand as you enter data).
