

Global Health Certificate for Medical Professionals
Academic Year 2016-2017
Program Profile

The Global Health Certificate program is designed for students that are interested in working in the global health field and for those that have earned a medical professional degree (minimum of a bachelor’s degree). The certificate can be an important add-on for students currently working on medical degrees and/or graduate programs in the health professions, who would like to explore international issues and opportunities.
