

UNTHSC School of Public Health

MPH – Maternal and Child Health Concentration

The MPH concentration in **Maternal and Child Health** is designed to prepare professionals from a variety of backgrounds (medicine, biology, nursing, nutrition, women’s studies, anthropology, social work, sociology, psychology) for leadership roles in organizations that focus on promoting the health of women, children, and families. This interdisciplinary concentration provides knowledge of the major determinants of maternal health and child health, and strategies for improving the health of mothers and children, including program planning and evaluation, research methods, and policy analysis at the local, state, national and international levels.

Students in the MPH Maternal and Child Health concentration are admitted once a year as a cohort. Full-time attendance is required and students are expected to graduate in five consecutive semesters. Students follow a weekly calendar of curricular and co-curricular activity that occupies 8-hour blocks of time, Monday through Friday (9 am- 6 pm). Students are prohibited from holding off-campus employment while in the program.

MPH – Maternal and Child Health Curriculum (cohort program completed in 5 consecutive semesters)

Courses	Credit Hours	Total Hours
