

Work Safer and Smarter

Using wearable and mobile technology to promote safety and intervention fidelity

Gerald Leekey and Joe Jones, ICARUS Ops

Learn how ICARUS Ops has harnessed best practices in high-risk industries to reduce human error, promote intervention fidelity, and enhance performance of complex systems. This interprofessional workshop is designed for health care and public health professionals who seek to use technology and evidence-based checklist practices to improve interventions and human performance.

October 29th, 12:00PM-1:00PM UNTHSC EAD 719

RSVP to Emily.spence-almaguer@unthsc.edu

Lunch provided to the first 25 people
