IMMUNIZATION REQUIREMENTS

Immunization requirements of ALL UNTHSC [TCOM, GSBS, SPH, PA, DPT & Pharmacy] students are:

- Hepatitis B (Series or Titer)
- Hepatitis B (Titer)
- Measles, Mumps, Rubella (MMR)
- Varicella (Two Doses OR History of Disease OR Titer)
- Tetanus, Diptheria, Acellular Pertussis (Tdap)
- Meningococcal (If under the age of 22)*
- Inactivated Polio Vaccine (IPV) OR Oral Polio Vaccine (OPV)
- Influenza
- Tuberculin Skin Testing
- Physical Examination

Proof of all immunizations must be uploaded onto the Certiphi myRecordTracker website (https://www.myrecordtracker.com/). Upon acceptance to UNTHSC, each student will receive an email from myRecordTracker with instructions on creating an account. Once the account is created, the students can begin uploading proof of immunizations. Since UNTHSC is now using the myRecordTracker website for all student immunizations, the students no longer have to submit records to the Student Health Clinic. Immunizations may also be provided at the Student Health Clinic and will be covered as outlined under the student's individual insurance plan.

Each year, the tuberculin skin tests and influenza vaccines are administered by the University. Proof of these immunizations will not be required until the University has administered them. If you have a history of a positive PPD, please schedule an appointment with the Student Health Clinic and bring all records with you, including most recent chest x-ray.

*documentation of **Meningococcal vaccination** must be received no later than 10 days before the first day of class or students will be removed from their courses. Students who do not submit their immunization record by the deadline will not be allowed to attend classes for the semester.
