2:00 PM – 3:00 PM	EAD 506	Windows 8/Using Laptop
3:00 PM – 4:00 PM	EAD 506	Information Bedside

Workshop Descriptions:

Getting the Most Out of Your iPad

Tips, tricks, app recommendations, configuration, and best practices for using your iPad Mini in the classroom and in life.

Windows 8 and Using Your New Laptop

Get ready to hit the ground running when classes start! This workshop will cover use of Windows 8, using your laptop as a tablet, note taking best practices, configuring Outlook, calendars and more.

Information Bedside: Clinical Point-of-Care Tools and Mobile Reference

Free clinical iPad apps! Answers at your fingertips! Mobile medical information tools you can use in the classroom AND patient care!

This session introduces a number of FREE point-of-care and research resources available through Lewis Library for students and clinicians. The session will also cover mobile library connectivity/access questions, current awareness tools, and using a mobile device in research. Learn to use the iPad to unlock information in the classroom and clinical practice!
