

Suggested 4th Year Rotations

With inspiration from our counterparts at TAMU Health Science Center College of Medicine, and with the invaluable input from UNTHSC Course Directors Years 3 & 4, we offer the following suggestions for 4th year clinical rotations. The suggestions provide for an important breadth of clinical experiences when considering and preparing for a variety of different residencies.

As you review these lists, keep in mind the core 4th year rotations and how these already contribute to the suggested rotations.

ANESTHESIOLOGY		EMERGENCY MEDICINE	
Anesthesiology	4-8 weeks	Emergency Medicine	4-8 weeks
Other:	12-16 weeks	Other:	12-16 weeks
Medicine		Medicine	
Cardiology		Cardiology	
Pulmonary		ICU	
Nephrology		Other subspecialties	
Surgical ICU		OB/Gyn	
Medical ICU		Pediatrics	
Pediatrics		Radiology	
Cardiology		Surgery	
Neonatal		General Surgery	
Radiology		Plastic Surgery	
		Orthopedics	
		Otolaryngology	
		Ophthalmology	
FAMILY MEDICINE		INTERNAL MEDICINE	
Cardiology		Internal Medicine	
Dermatology		Cardiology	
Gastroenterology		Gastroenterology	
Geriatrics		ICU-Medicine	
Gynecology with or without Obstetrics		Nephrology	
Infectious Disease		Pulmonary	
Oncology - Primary Care		Choice of one:	
Physical Medicine Rehabilitation or Sports Medicine		Allergy/Immunology	Endocrinology
Pulmonary		Hematology	Infectious Disease
Psychiatry		Oncology	Rheumatology
Pediatrics		Other:	
Radiology		Dermatology	
		Geriatrics	
		Gynecology - ambulatory	
		Psychiatry	
		Radiology	
		Surgery subspecialty	
		Ophthalmology	
		Orthopedics	
		Otolaryngology	
NEUROLOGY			
Neurology	4-8 weeks		
Internal Medicine			
Cardiology			
Physical Medicine and Rehabilitation			
Rheumatology			
Surgery subspecialty			
Ophthalmology			
Orthopedics			
Neurosurgery			
Urology			
Psychiatry			

OBSTETRICS AND GYNECOLOGY		PHYSICAL MEDICINE AND REHABILITATION	
Obstetrics and Gynecology 12-16 weeks		Physical Medicine and Rehabilitation 4-8 weeks	
Including any MFM, REI, GYN ONC, UROGYN, GYN, OB, Genetics		Internal Medicine Neurology	
Radiology - focus on ultrasound, but any acceptable		Occupational Medicine	
Anesthesiology - OB and general		Rheumatology	
Internal Medicine		Psychiatry	
General		Surgery subspecialty	
ID		Neurosurgery	
ICU		Orthopedics	
General Surgery/GI Surgery (abdominal cases)		Urology	
Urology		PATHOLOGY	
Surgical ICU		Pathology	
Neonatal ICU		Dermatology	
Wound Care		Gastroenterology	
Ambulatory Medicine/Family Medicine		Hematology/Oncology	
Emergency Medicine		Obstetrics and Gynecology	
Breast Surgery/Clinic		Pulmonary Medicine	
PEDIATRICS		PSYCHIATRY	
General Pediatrics 4-8 weeks		General Psychiatry 4-8 weeks	
Subspecialty Pediatrics		Other Psychiatry	
NICU PICU		Child Psychiatry	
Pediatric ER		Clinical Research Design and Application	
Pediatric Research or other subspecialty		Medicine	
Anesthesiology		Cardiology	
ENT		Clinical Pharmacology	
Ophthalmology		Endocrinology	
Radiology		Gastroenterology	
		Infectious Disease	
		Nephrology	
		Pulmonary	
		Hematology/Oncology	
		Physical Medicine	
RADIOLOGY		GENERAL SURGERY	
Radiology 4-8 weeks		(Including CV/Thoracic, Plastic, Pediatrics, and Colon and Rectal Surgery)	
Emergency Medicine		General Surgery 4 - 8 weeks	
Medicine Cardiology		Medicine Cardiology	
Gastroenterology		Gastroenterology	
General Internal Medicine		Infectious Disease	
Hematology and Oncology		Nephrology	
Pulmonary Medicine		Pulmonary Medicine	
Pediatrics		Anesthesiology	
Surgery		Radiology	
General		Subspecialty Surgery	
Genitourinary Surgery		Cardiothoracic Surgery	
Orthopedics		Pediatric Surgery	
ENT		Vascular Surgery	

NEUROSURGERY		OPHTHALMOLOGY	
Neurosurgery	4-8 weeks	Ophthalmology	4-8 weeks
General Surgery		Medicine Cardiology	
Medicine Cardiology		Infectious Disease	
Nephrology		Anesthesiology	
Pulmonary Medicine		Surgery	
Radiology		ENT	
Anesthesiology		Radiology	
Subspecialty Surgery		Pathology	
Surgical ICU		Pediatrics	
Pediatric Surgery			
Orthopedic Surgery			
ORTHOPEDIC SURGERY		UROLOGY	
Orthopedic Surgery	4-8 weeks	Urology	4-8 weeks
General Surgery		General Surgery	
Radiology		Medicine	
Medicine		Cardiology	Gastroenterology
Cardiology		Nephrology	Pulmonary Medicine
Infectious Disease		Anesthesiology	
Rheumatology		Radiology	
Anesthesiology		Surgical ICU	
ICU - Medical or Surgical			
Physical Medicine and Rehab
