TEXAS COLLEGE OF OSTEOPATHIC MEDICINE (TCOM) Est. 1970
One of the nation’s top medical schools for primary care, TCOM has an outstanding reputation for our innovative medical school curriculum, cutting-edge research, quality patient care and outstanding student performance.

SCHOOL OF BIOMEDICAL SCIENCES (SBS) Est. 1993
SBS takes great pride in shaping the future of the biomedical workforce with three areas of focus: Education, Student Services and Research. Our students are the educators, researchers and health care professionals of tomorrow. They also are fully engaged in innovative, groundbreaking research to tackle major health care issues such as cancer, cardiovascular disease and Alzheimer’s disease.

SCHOOL OF PUBLIC HEALTH (SPH) Est. 1999
From its inception, the School of Public Health has focused on providing critically needed public health education and research to North Texas. In addition to our exceptional curricula, we require our students to engage in hands-on public health experience beyond the classroom to ensure our graduates are well versed in all aspects of public health.

SCHOOL OF HEALTH PROFESSIONS (SHP) Est. 2004
With three outstanding programs under one roof, our School of Health Professions offers a Doctor of Physical Therapy, Master of Physician Assistant Studies and Master of Science in Lifestyle Health and Coaching degrees. We provide the knowledge, experience and skills necessary to ensure our students excel in their chosen health professions.

COLLEGE OF PHARMACY (COP) Est. 2013
The College of Pharmacy is committed to developing patient-centric pharmacy professionals trained in an interprofessional environment. We advocate a team health care concept coupled with optimizing health through discovery.
## HSC PROFILE

**RESPECT**

**INTEGRITY**

**SERVE OTHERS FIRST**

### Headcount Enrollment*

- 1,461 Doctoral-Professional Practice
- 92 Doctoral-Research
- 925 Master’s
- 29 Graduate Certificates

*35 dual degree students count only once in the total headcount enrollment.

### Degrees & Certificates Awarded

- 347 Doctoral-Professional Practice
- 14 Doctoral-Research
- 436 Master’s
- 23 Graduate Certificates

### Increase in HSC Enrollment from 2020**

- 6% increase

### Increase in the number of

- 15% Increase in the number of Black/African American students awarded HSC degrees and certificates since 2020

- 41% Increase in the number of Hispanic/Latino students awarded HSC degrees and certificates since 2020

**2021 enrollment includes all graduate certificate students, according to IPEDS enrollment definitions, while the 2020 Viewbook enrollment used the THECB criteria that excludes some certificate students. The normalized increase was 5.5%. • Enrollment according to Fall 2021 IPEDS Enrollment Report that includes the THECB CBM001 Fall 2021 Enrollment Report plus students enrolled in self-supporting graduate certificate programs, according to IPEDS definitions. IPEDS is the Integrated Postsecondary Education Data System of the U.S. Department of Education National Center for Education Statistics. • Graduates according to the IPEDS Academic Year 2020-2021 Completions Report, which includes the THECB CBM009 AY2021 Report of degrees awarded, plus completions of self-supporting graduate certificate programs. • Students enrolled in multiple programs count only once in the HSC total enrollment.

**% Change** is the percentage change in 2021 values from the 2020 values: (2021% - 2020%)/2020%. Note that % change is calculated on actuals with extended decimal points and may differ from calculations using the displayed rounded numbers. • Enrollment according to IPEDS Fall Enrollment Reports, which includes the THECB CBM001 Reports. 2021 enrollment also includes students enrolled in self-supporting graduate certificate programs. The 2020 enrollment applied THECB criteria that excluded some certificate students. The normalized increase, accounting for the excluded certificate students, is 5.5%. • Race/Ethnicity is reported according to IPEDS definitions. For comparison to 2021, IPEDS definitions were applied to 2020 Viewbook data, resulting in the recategorization of 18 Black/African American students to the Two or More Races category, changing the proportion of the Black/African American category from 8% of total students to the revised 7% of total students. Students who are not U.S. citizens or U.S. nationals and who are in the U.S. on a visa or temporary basis are reported with the legal status of “Nonresident Alien/International.” Students who identify as Hispanic/Latino ethnicity, of any race, are reported as “Hispanic/Latino.” Students who identify as Non-Hispanic/Latino ethnicity and who identify with more than one race category are reported as “Two or More Races.” Students who identify as Non-Hispanic/Latino ethnicity and one race are reported in the selected race category. Students who do not provide a race or ethnicity are reported as “Not Specified.” For purposes of the Viewbook the following are reported as a combined total in the “Two or More & Other Races” category: non-Hispanic American Indian or Alaska Native, non-Hispanic Native Hawaiian or Other Pacific Islander and non-Hispanic Two or More Races. • Students enrolled in multiple programs count only once in the HSC Total Enrollment, but count in each applicable College/School Enrollment. • Sums may be +/- 1% due to rounding.

2018 3-Year Student Loan Default Rate: 0.7% • Average Default Rate for Other Texas Health-Related Public Institutions: 2.1%

Data sources: HSC Offices of Student Finance and Financial Aid, and the U.S. Department of Education Federal Student Aid Cohort Default Rates. • SCH=Semester Credit Hour. Stated tuition is the total of statutory, board authorized and board designated tuition. • Program-specific tuition and fee amounts are available at www.unthsc.edu/tuition-and-fees. • Cost of Attendance (COA) is available at www.unthsc.edu/financial-aid/cost-of-attendance-at-unthsc. • Financial aid information and assistance is available at www.unthsc.edu/financial-aid.
$67.4 Million
Sponsored Research Awards

$52.3 Million
Research Expenditures

- Research areas of strength include health disparities, health outcomes, human identification, eye diseases, heart diseases, aging and degenerative brain disorders.

- HSC is a global leader in neurodegenerative translational research, with a $45 million grant to study health disparities in Alzheimer’s disease. The Health and Aging Brain Study examines how biological and lifestyle factors contribute to cognitive problems in Mexican American and African American seniors.

- HSC’s Center for Health Disparities received a $50 million award from the National Institutes of Health (NIH) to lead the coordinating center for the Artificial Intelligence/Machine Learning Consortium to Advance Health Equity and Researcher Diversity consortium, the AIM-AHEAD program. Other academic members of the consortium include Vanderbilt University, University of Houston, University of Colorado, UCLA, Meharry Medical College, Morehouse School of Medicine, Johns Hopkins University, Howard University and Harvard Medical School.

- The School of Public Health received funding from the National Institute on Alcohol Abuse and Alcoholism to study attitudes about alcohol and marijuana use in young adults. This award adds to the school’s extensive program of research on alcohol, tobacco and other drug use.

INNOVATION IN RESEARCH AT HSC

- HSC Next launched a unique, innovative challenge program to fund creative approaches to solve problems in research, education and health care.

- Pre-Clinical Imaging Center: The Division of Research and Innovation and School of Biomedical Sciences opened a new imaging center for pre-clinical research that features systems capable of MRI, CT, PET and SPECT imaging to complement the Clinical Imaging Center in the Institute for Translational Research.

The Texas College of Osteopathic Medicine is named as one of the nation’s top medical schools for primary care by U.S. News & World Report, consistently ranking in the top 20 of all medical schools for its percent of graduates entering primary care.

93% Opt-in rate for Medicare annual wellness visits by HSC Health eligible patients

Annual wellness visits identify potential health issues to delay, mitigate or prevent health issues altogether. By creating comprehensive care plans, HSC Health closes gaps in care, identifies conditions that may not otherwise be captured, and empowers patients to make informed choices about their health.

92,245 HSC Health Clinical Patient Encounters (in-person and virtual visits)

» Specializing in primary care and prevention, healthy aging and applied genetics.

» Only site in Texas selected for a Department of Health and Human Services federal grant to improve health care for older adults.

» Pediatric Mobile Clinic provides health care to children in underserved areas of Fort Worth at no cost to families.

» SaferCare Texas is a collaborative institute focused on educating, training and identifying opportunities to improve patient safety by reducing medical errors.

HSC was the first to establish a drive-through COVID-19 testing site for first responders at the onset of the pandemic. Additionally, HSC partnered with Tarrant County Public Health to provide contact tracing services and launched a vaccine registration initiative in underserved areas of Tarrant County.

HSC partnered with Remote Area Medical (RAM®) to deliver free, quality dental, vision and medical care to underserved and uninsured individuals.

SaferCare Texas’ Asthma 411 program provides asthma-mitigating medications to 11 economically disadvantaged public school districts, helping keep children in class and saving the schools more than $1 million.

The Pediatric Mobile Clinic provides services to 1,850+ patients annually. Partnering with HSC’s North Texas Eye Research Institute, more than 3,500 pre-k and kindergarteners received vision screenings last year.

Since the inception of Fort Worth’s Cowtown Marathon more than 40 years ago, HSC has been actively involved in supporting this event. Most recently, the interprofessional team of students studying to become doctors, physical therapists, physician assistants, pharmacists and medical scientists staffed the marathon’s 24 stations throughout the race route, providing support to runners who needed medical attention.

The UNT Center for Human Identification (CHI) manages the Texas Missing Persons DNA Database and performs forensic genetic and anthropological examinations to support criminal casework and identifications of missing and unidentified people. CHI’s contributions to the FBI’s Combined DNA Index System have generated 4,101 investigative leads for law enforcement agencies to date. From 2011 to 2021, CHI also managed the U.S. Dept of Justice’s National Missing and Unidentified Persons System, supporting the resolution of 5,132 cases in one year alone (7/1/2020-6/30/2021.)
